

COVID-19 Business Statement

Please be assured PCS Services is closely monitoring the evolution of the Coronavirus situation and the business is regularly updating staff and service users on the situation and on necessary precautions to take.

As a responsible business; internal arrangements have already been executed i.e. increased awareness, promotion of good hygiene practices, posters, distribution of hand sanitisers etc.

These are all measures we have taken within the workplace (as you would for any other illness such as the common cold and flu etc.).

Outside of these arrangements we will adhere and react in accordance with COVID-19: guidance for employers and businesses – GOV.UK.

We are awaiting the updated guidance for Supported Living Accommodation as it has currently been withdrawn and will update accordingly.

PCS Services will take the appropriate actions to continue providing our employees, and service users a safe and healthy working environment whilst constantly evaluating the situation and monitoring any potential knock on effects to our service.

We realise this situation remains very dynamic as information continues to change day-to-day. We will of course keep you updated as the situation evolves.
